Hiring Manager
EXILANT Technologies

Dear Mr./Ms.,

I am pleased to find your job description for Web developer Internship or full-time at EXILANT Technologies. I feel that it is direct match with my qualifications and skills. I will graduate in May 2019 from TAMUCC with a Bachelor of Science in Computer Science. For more than 4 years of my university education as a Web Development student, I have developed both the functional and aesthetic components of websites.

As a student, I participated in a job in school that helped students who need help in theory or programming assignment in any Computer Science classes. This allows me to develop strong personal communication skills. I successfully completed classes related to Web Development, Mobile Programming and Window Platform Application. My GPA is 3.893. While working on the projects I have at school, I have used several Web development frameworks to resolve our needs, such as ASP MVC, ReactJS frontend-framework, NodeJS as backend, Bootstrap and jQuery. My strength languages are C++, C#, Java, Python and JavaScript. Database designing and management are also my preferred skills.

Please consider the enclosed resume to know more about my background and skills. I look forward to meeting with you to discuss the internship in more detail. Thank you for your time and consideration.

Respectfully,

Tri Le
